

HELLO THERE

This is CapitaliseGFX.

A trusted platform for increase your balance

Let's Know About It

CapitaliseGFX is a newly introduced trading and investment platform powered by CapitaliseAI, a company that has been at the forefront of trading innovation for more than a decade.

Over the years, CapitaliseAI has provided traders with powerful tools, signals, and predictive insights to support smarter trading decisions. With CapitaliseGFX, the platform goes beyond serving only traders. It opens up opportunities for both traders and non-traders alike. Users can invest their funds with the assurance of zero risk exposure, while still enjoying consistent profit returns. In essence, CapitaliseGFX is designed to bridge the gap between professional traders and everyday investors – making trading profits accessible to everyone, regardless of their expertise or background in financial markets.

downline do AI Trade in his account.

Description of Trading

User can enjoy **2** types of trading section

Live Trade

AI Trade

Live Trade in details

Live Trade has mainly **2** types

Standard Trade

Standard Trade is designed for everyone – simple, flexible, and accessible with lower entry requirements. It's the best choice for beginners and casual traders who want to start their journey with confidence.

Pro Trade

Pro Trade is built for professionals – offering raw spreads, instant execution, and premium conditions. It's the ultimate choice for experienced traders who demand maximum control and efficiency.

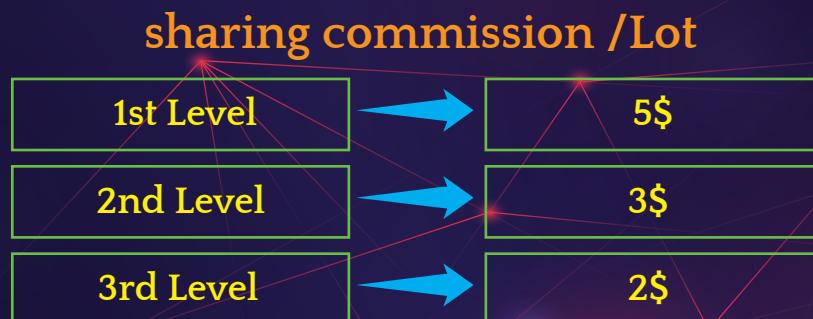

Standard Trade VS Pro Trade

Feature	Standard Trade	Pro Trade
Target Users	Beginners & casual traders	Professional & experienced traders
Entry Requirement	Low deposit, easy access	Higher deposit, premium access
Spreads	Slightly higher (built-in commission)	Raw spreads (ultra-low cost)
Execution	Simple & flexible	Instant, advanced execution
Trading Style	Best for learning & small trades	Best for scalping, high-volume, and pro strategies

Live Trade Comission

Let's imagine your downline do manual trade. In this case his upper generation will get 10\$ profit in per lot which is done by your downline and this per lot's profit means 10\$ will be shareable among 3rd generation

Let's talk about our AI Trade

AI Trade is a system where trading is fully managed by intelligent robots instead of humans. Normally, traders analyze the market, make predictions, and then place trades manually. But our AI trade robot performs all these tasks from predicting market movements to placing trades automatically. This makes the trading process faster, more efficient, and often far more accurate than traditional manual trading, as our AI robot tools can analyze vast amounts of data and detect patterns beyond human capability.

User get AI Trade Profit 6 days in a week....(Sunday is offday)

Minimum 1% to Maximum 4%

Benefits of our AI Trade

High Accuracy – AI can analyze huge amounts of data and predict market trends with greater precision than human traders.

Time-Saving – No need to sit in front of charts all day; the robot executes trades automatically.

Emotion-Free Trading – Unlike humans, AI doesn't get influenced by fear or greed, ensuring more consistent results.

24/7 Market Monitoring – AI keeps track of the market all the time, even when you're asleep.

Faster Decision-Making – AI can react to market changes within milliseconds, something impossible for humans.

AI Trade Profit Distribution & Loss Allocation

Profit Distribution

- Profits shared proportionally to capital contribution
- Example: User 60% Company 15% Upline 25%

Loss Allocation

If account balance reaches \$0, losses are split 50%

User 50% company

Both parties equally share responsibility
